

## TECHNOLOGY DEPARTMENT

### **Technology Philosophy:**

All Beckman students will be provided a 1:1 technology environment. In 2013 Beckman adopted the Chromebooks, for student use. Student responsibilities and expectations in the 1:1 environment are outlined in detail in the *Technology Use Agreement*.

All Beckman students will become proficient in the use of technology to prepare them for their post-secondary experiences. Students will be expected to use technology appropriately across all of the content areas. Skill areas will include:

### Technology Foundation Standards for Students (NETS)

#### **1. Basic operations and concepts**

- Students demonstrate a sound understanding of the nature and operation of technology systems.
- Students are proficient in the use of technology.

#### **2. Social, ethical, and human issues**

- Students understand the ethical, cultural, and societal issues related to technology.
- Students practice responsible use of technology systems, information, and software.
- Students develop positive attitudes toward technology uses that support lifelong learning, collaboration, personal pursuits, and productivity.

#### **3. Technology productivity tools**

- Students use technology tools to enhance learning, increase productivity, and promote creativity.
- Students use productivity tools to collaborate in constructing technology-enhanced models, preparing publications, and producing other creative works.

#### **4. Technology Communication Tools**

- Students use telecommunications to collaborate, publish, and interact with peers, experts, and other audiences.
- Students use a variety of media and formats to communicate information and ideas effectively to multiple audiences.

#### **5. Technology Research Tools**

- Students use technology to locate, evaluate, and collect information from a variety of sources.
- Students use technology tools to process data and report results.
- Students evaluate and select new information resources and technological innovations based on the appropriateness to specific tasks.

#### **6. Technology problem-solving and decision-making tools**

- Students use technology resources for solving problems and making informed decisions.
- Students employ technology in the development of strategies for solving problems in the real world.
