Technology Philosophy:
All Beckman students will be provided a 1:1 technology environment. In 2013 Beckman adopted the Chromebooks, for student use. Student responsibilities and expectations in the 1:1 environment are outlined in detail in the Technology Use Agreement. All Beckman students will become proficient in the use of technology to prepare them for their post-secondary experiences. Students will be expected to use technology appropriately across all of the content areas. Skill areas will include:

Technology Foundation Standards for Students (NETS)
1. **Basic operations and concepts**
   - Students demonstrate a sound understanding of the nature and operation of technology systems.
   - Students are proficient in the use of technology.
2. **Social, ethical, and human issues**
   - Students understand the ethical, cultural, and societal issues related to technology.
   - Students practice responsible use of technology systems, information, and software.
   - Students develop positive attitudes toward technology uses that support lifelong learning, collaboration, personal pursuits, and productivity.
3. **Technology productivity tools**
   - Students use technology tools to enhance learning, increase productivity, and promote creativity.
   - Students use productivity tools to collaborate in constructing technology-enhanced models, preparing publications, and producing other creative works.
4. **Technology Communication Tools**
   - Students use telecommunications to collaborate, publish, and interact with peers, experts, and other audiences.
   - Students use a variety of media and formats to communicate information and ideas effectively to multiple audiences.
5. **Technology Research Tools**
   - Students use technology to locate, evaluate, and collect information from a variety of sources.
   - Students use technology tools to process data and report results.
   - Students evaluate and select new information resources and technological innovations based on the appropriateness to specific tasks.
6. **Technology problem-solving and decision-making tools**
   - Students use technology resources for solving problems and making informed decisions.
   - Students employ technology in the development of strategies for solving problems in the real world.
